### INTRODUCTION

The Luzerne County Solid Waste Management Department (LCSWMD) has assembled this guide in a continuing effort to promote recycling. This guide is designed to aid the residential sector as to where various materials can be recycled. The information in this guide is based solely on information supplied by the recyclers at the time the guide was compiled. Every attempt has been made to verify the information contained in this guide. The LCSWMD does not assume responsibility for or guarantee the accuracy of the information provided.

Alternative recyclers may be available and the listing of recyclers in this guide does not constitute any endorsement on the part of the LCSWMD.

It is suggested, that before any material is taken to these recyclers, that the generator contact the listed recycler to verify pricing, hours of operation, specifications, acceptability, and any other concerns between the guide user and the recycler listed.

Printed on recycled paper.
