 Page 2 continued...this map surpassed the Creek Rd intersection and continued downhill to pass my above mailing address. The underground collection tank by Lutheran church (white) had 4 color coded drains around white octagon; and they are all underground. No above ground drains on either side were noted but one can hear the sound of rushing water from under the ground. The 4 tributaries on map were blue colored and flowing from south.. pg 3 continued

 Page 5 cont...acre feed by Barry Isett/D. Wilusz? What evaluations of roadway water testing was done and what are all test results? Did anyone evaluate the DEP water tests from Big Wapwallopen Creek when they devised those 4 tributaries to be sent to homeowners land? If so, results requested. Once the 3/2017 snowfall melted I found out that the terminating drain by cow ACA pen was draining fecal excrement to within 20 feet from my well; I asked...6 cont,

 Page 6 cont...Ed O'Neill (8/2017) at my home, to please redirect that drain to around the swale (which was where L. Plesh said it was going) or any other way to stop fecal excrement from being within 20 feet from my well. Why was I told No? This drain bypasses DEP footage distance requirements and is in direct violation of Clean Water Act. I have a right to know why this elaborate drainage system is not being changed to protect the health of your taxpayers!!!!
