Cindy Brannan - Wright Township - Fix Our Roads Luzerne County Member

Madam Chair Radle - please read slowly and loudly so that everyone can hear, especially on video for all of Luzerne County's residents unable to attend this meeting in person. Thank you.

Dear Council Members,

I am writing to find out how Council is fighting for Bipartisan Infrastructure Loan funds and making certain Luzerne County and her residents are getting every penny possible. Where can we find a report of the work you are doing to fight for all of us? When can we expect updates and at what time intervals?

I would also like to see each council member's comprehensive plan regarding the anticipated funds. What roads are planned for complete replacement? What projects and expected costs have been requested from our county engineer, Larry Plesh? What years are each of the projects planned for completion? Will all 120+ miles of county roads be replaced, lines painted, new guide rails installed, vegetation and trees trimmed and ditches and drainage issues addressed? Finally, will all litter and dumping along our county roads be cleared and monitored to apprehend and prosecute perpetrators? Will you be placing an increase of penalties for litter and dumping along our county roadways on your agenda? When? Will each of you promise to raise penalties to significant community service retrieving litter and dumping remnants? Can BIL funds be used for surveillance of our roads to stop this disgusting practice of using our county as a trash receptacle and dumping field?

Now is the time to fight for the most funds possible for Luzerne County. Please tell each of us what you are doing to represent us in this fight. How much will we get? On what projects will these funds be used and when are the projects set to begin and anticipated to be complete?

We need safe and clean roads. We deserve safe and clean roads. We welcome visitors and hope they return to our county. Luzerne County has such potential and such a beautiful landscape. Please fight to repair and replace her roads and clean her landscape. Tell us, in detail, your plans regarding the Bipartisan Infrastructure Loan.
