

County Cares Vaccine Volunteer Rollout

THANK YOU

- ▶ Over 100 Luzerne County Citizens reached out wanting to volunteer
- ▶ Over 30 Release Forms signed already
- ▶ 3 successful rides completed so far

Our great volunteer Cindy taking Joy for her first shot at the Pittston Geisinger!

Process

- ▶ The Area Agency on Aging fields calls from those that need rides
- ▶ They call or email me the information (who, what, where)
- ▶ An email will then be sent to the volunteer group containing all the information
- ▶ First come, first serve – the volunteer that accepts the ride first will be responsible for the ride. We will let you know who responds first
- ▶ We will connect the volunteer with the person who needs the ride so they can coordinate address, time, etc
- ▶ *The volunteer is responsible for taking and coordinating the with the rider for their second vaccine appointment. If you have a time conflict please let us know and we will fill the gaps.

This is based on YOUR availability. Volunteer when you can!

FAQ's

- ▶ Is the plan to secure vaccines for volunteers?
 - ▶ This is a work in progress, it is the goal but as you all know we are behind on obtaining vaccines. Please try and schedule them on your own for now
- ▶ Mass Vaccination Site?
 - ▶ We have heard rumors about this for some time now. I do believe it is still in the works (that is when we will become the busiest) but for right now we will handle all one off requests
- ▶ LCTA? shared ride program and more
