Please, for the safety of the citizens driving in Luzerne County, take an afternoon and drive the roads. I spoke with Mr. Mitchell this morning and made him aware of just two roads in Mountain Top that required more than patching: South Main and Church. I was told resurfacing was never going to happen, but patching would. I cannot tell you how unacceptable those words were.

We are on the replacement of our 8<sup>th</sup> tire in our family of four drivers and four cars. We have replaced two rims. Someone is going to get hurt when swerving into traffic to avoid these craters. I wouldn't want the responsibility of the road conditions on my conscious.

Regards,

Cindy Brannan
