To the members of the Luzerne County Council...I simply urge you to vote no on this measure and to get back to business.

I personally believe that type of action should not be undertaken unless it arises as a request from and through our election boards or as a direct result of hard evidence of issues, lest this board veers into the realm of acting on political interests and pundits versus the interest of our citizens.

As the party of smaller government...how much of my tax dollars have been taken up with this item so far? None of which will have meaningful effect as the County must follow the guidance from the state?

Please...just focus on the real county issues and stay out of this political noise. I know it isn't as splashy for the papers, but there's real work to be done here.

Thank you,  
Ryan
