Voting drop boxes are necessary for full enfranchisement of all citizens. The misguided attempt by certain "leaders" to ban county workers from handling the boxes is an outrageous attempt to disenfranchise those who need the option to vote quickly and easily. This would, undoubtedly, cause major difficulties for the poor, the disabled, those without reliable transport, and many minorities, which is exactly what the followers of the corrupt and disgraced former "president" want. This is further fueled by said former "president's" ongoing lies about election integrity. This council has better things to do than doing the bidding of an unfit and morally bankrupt cult leader. For example, where are the unused American Rescue Plan funds being allocated? Or is this an attempt to avoid giving credit to our current president for making those funds possible? The political corruption and lack of actually serving the public is truly appalling! Do better!
