I am re-submitting this updated email as I neglected to add my Luzerne County township

Please read into public record at BOTH the ordinance hearing and during Council's general meeting  
(Both work and voting session agendas)

Dear Luzerne County Council Members,

Partisan politics, flawed reasoning, fear, and lies have fueled the conspiracy theory hysteria around mail-in ballots and ballot drop boxes. It is embarrassing that the Luzerne County Council has succumbed to this irrational voter fraud frenzy dedicating an obscene amount of time and public resources to a non-existent problem that needs no solution. You appear as petulant children sticking fingers in your ears and voicing la,la,la,la,la "I'm not listening I can do as I want".

In 'straight-jacketing' the utilization of drop boxes you are disenfranchising patriotic voters committed to participating in our system of government. Consider the impact this has on individuals who do not have the time, health, resources, transportation, and freedoms available to others. You are essentially eliminating their choice to vote.

Who are some of these patriots?

-The single parent who works a 10 hour shift, then picks their children, fixes dinner, helps with homework and literally has no time left to access a polling location

-The nurse who works a double shift and is so dedicated to preserving the health of others they have no idea that it is also election day

-The teamster who missed too many elections because they thought they would make it back in time

-The dyslexic troubled by the amount of time it took to decipher and mark a ballot or use a voting machine

There is urgent County work you should be prioritizing. Quit wasting time crafting measures to restrict voting access.

Cordially,  
Claudia J. Glennan, Cdr. USNR-R  
Salem Township
