Dear Luzerne County Council Members,

\$51,000,000 of \$54 million for Luzerne County infrastructure projects? NO!

Make no mistake, the push for this bridge is for the proposed NACERO gas to gasoline plant, a commercial company, already receiving billions of dollars in tax subsidies, so they can make money, and receive windfall profits while ripping off "We the People" at the pumps.

There have been no feasibility, environmental impact, or geological survey studies done so this proposed plant is currently fiction.

Sen. Yudichak was quoted in a Times Leader article  
"I'm in constant contact with Nacero, and they are also communicating with municipal and community leaders".

There have been no public briefings no informational sessions, Newport Township has stated they have not received information nor updates from Nacero, so with whom exactly are "they" communicating?

Vote No.

Cordially,  
Claudia J. Glennan Cdr. USNR-R  
Salem Township
