- The top portion of the image contains a scanned image of the ballot.
  - The bottom portion consists of a machine-generated type-out showing each mark that the unit interpreted for that particular ballot. This is referred to as an AuditMark®.
- 3.4 **ImageCast® X (“ICX”)**
- 3.4.1 **Application:** ImageCast X BMD is a touchscreen in-person voting device and ballot marking device. Voting sessions are initiated on the tablet by either a smart card or the entry of a numeric code based on activation. The ballot is loaded directly onto the standalone device. All voting activity is performed at the tablet, including accessible voting. Accessible voting interfaces connect to the tablet via an Audio Tactile Interface or ATI. For all modes of voting, after the voter reviews the ballot selections, a paper ballot is created for the voter from a printer in the voting booth. The printed ballot contains a written summary of the voter’s choices, as well as a 2D barcode which is read by Dominion’s ImageCast Precinct or Central tabulator. No votes are stored on the ImageCast X-BMD unit. All votes can be tabulated and stored on both the ImageCast Central and Precinct Tabulators.

- 3.6 **ImageCast Adjudication Application.** The Adjudication application is a client and server application used to review and adjudicate ImageCast Central Scanner ballot images. The application uses tabulator results files and scanned images to allow election administrators to make adjudications to ballots with auditing and reporting capabilities. The Adjudication Application examines such voter exceptions as overvotes, undervotes, blank contests, blank ballots, write-in selections, and marginal marks. The application works in two basic modes: election project setup and adjudication. The Adjudication Application can be used in a multi-client environment. Adjudication eliminates the need to physically rescan ballots, which can potentially damage the originals and cause chain-of-custody concerns.
- 3.7 **Mobile Ballot Printing** is an application used to search, preview and print ballots via a local printer device. The application makes use of ballot information and PDFs produced by the Election Event Designer application and information provided through the customer voter registration system.

The project manager shall be responsible for arranging all meetings, visits and consultations between the parties and for all administrative matters such as invoices, payments and amendments. The Parties shall develop and finalize a project implementation plan including a training and delivery schedule. The Parties agree that during the course of the implementation, changes to the project schedule may be required. Any changes to the project schedule must be mutually agreed to by both Parties and such agreement shall not be unreasonably withheld.
- 3.9 **Travel and Expenses included.** All costs of Dominion transportation, lodging and meal expenses are included during the Agreement Term.
- 3.10 **Ongoing telephone support.** Telephone support shall be available for Customers during the Term of the Agreement at no additional costs.

2.3. Third-Party Products. When applicable, Licensor hereby sublicenses any software that constitutes or is contained in Third-Party Products, in object code form only, to Licensee for use during the Term.

2.4. No Other Licenses. Other than as expressly set forth herein, (a) Licensor grants no licenses, expressly or by implication, and (b) Licensor’s entering into the Agreement will not be deemed to license or assign any intellectual property rights of Licensor to Licensee or any third party. Licensee agrees not to use the Software as a service bureau for elections outside the Licensee’s jurisdiction and agrees not to reverse engineer or otherwise attempt to derive the source code of the Software. The Licensee shall have no power to transfer or grant sub-licenses for the Software. Any use of all or any portion of the Software not expressly permitted is strictly prohibited.

2.5. Intellectual Property Infringement Indemnification. If a third party claims that the Software or System infringes any United States patent, copyright, trade secret or similar

intellectual property right, Dominion shall defend Licensee against such claim at Dominion's expense and pay all damages that a court finally awards against Licensee. If such a claim is made or appears possible, Dominion shall, within sixty (60) days of such claim, and at its option: (a) secure for Licensee the right to continue to use the infringing portion of the Software or System; or (b) modify or replace the Software and System so that it is non-infringing but retains equivalent functionality. If neither of the foregoing options is reasonably available, Dominion shall require Licensee to return the Software or System, and Dominion shall refund Licensee amounts calculated pursuant to the Software License fee, on a pro-rate basis. The foregoing notwithstanding, Dominion shall have no obligation to indemnify Licensee for any infringement claim based on Licensee's modification or misuse of the Software, if the claim would have been avoided had the Software not been modified or misused.

**3. Payment.** In consideration of the grant of the license, the Licensee shall pay the license fees set forth in the Agreement and Exhibit A of the Agreement.

**4. Upgrades and Certification.** During the Term, Licensor may provide upgrades to Licensee under the following terms and conditions.

The Licensor also warrants that the Software will comply with the voting system certification requirements and laws of the Customer's State (collectively the "Requirements") in effect as of the date the Software is certified by the certification authority of the Customer's State. This provision applies to the initially installed Software as well as any subsequent upgrades pursuant to Section 4 herein. However, the Licensor will not be required to make modifications to the Software or System as a result of changes in the Requirements. The foregoing warranty will be void in the event of the Software (i) having been modified by any party other than Licensor or (ii) having been used by the Licensee for purposes other than those for which the Software was designed by Licensor. If Licensor establishes that a failure of the foregoing warranty that is reported by Licensee is not covered by the foregoing warranty, the Licensee shall be responsible for the costs of Licensor's investigative and remedial work at Licensor's then current rates.

7.2. Corrections. If the Licensee believes that the Software is not functioning substantially in accordance with the Specifications or Requirements, the Licensee shall provide Licensor with written notice of the material failure within thirty (30) days of discovering the material failure, provided that the Licensee can reproduce the material failure to Licensor. The Licensor shall correct the deficiencies, at no additional cost to the Licensee and incorporate such corrections into the next version certified by the Customer's State.

7.3 Third-Party Products. The warranties herein do not apply to any Third-Party Products. However, to the extent permitted by the manufacturers of Third-Party Products, Licensor shall pass through to Licensee all warranties such manufacturers make to Licensor regarding the operation of such Third-Party Products.

Such events may include, without limitation, accidents; war, acts of terrorism; natural disasters; labor disputes; acts, laws, rules or regulations of any government or government agency; or other events beyond the control of both Dominion and Customer. Neither Party shall be liable under this Agreement for any loss or damage to the other Party due to such delay or performance failures. Notwithstanding the foregoing, both Parties shall use their best efforts to minimize the adverse consequences of any such circumstances. This Section shall not operate to excuse any Party from paying amounts that are owed pursuant to this Agreement.

**11. Indemnification.** Dominion, at its sole expense, will indemnify and defend the Customer, its officers, agents and employees from and against any loss, cost, expense or liability (including but not limited to attorney's fees and awarded damages) arising out of a claim, suit or action that the System infringes, violates, or misappropriates a Third Party's patent, copyright, trademark, trade secret or other intellectual property or proprietary rights.

NOTWITHSTANDING ANYTHING IN THE AGREEMENT TO THE CONTRARY, THIS SECTION DOES NOT LIMIT (1) THE INDEMNIFICATION OBLIGATION UNDER SECTION 11, (2) DAMAGES CAUSED BY DOMINION'S GROSS NEGLIGENCE OR WILLFUL MISCONDUCT.

**13. Confidential Information.**

- 13.1. Each Party shall treat the other Party's Confidential Information as confidential within their respective organizations and each Party shall be given the ability to defend its Confidential Information to the maximum extent allowable under the law prior to disclosure by the other Party of such Confidential Information.
- 13.2. Subject to the requirements of the Customer's public record laws ("PRL"), neither Party shall disclose the other Party's Confidential Information to any person outside their respective organizations unless disclosure is made in response to, or because of, an obligation to any federal, state, or local governmental agency or court with appropriate jurisdiction, or to any person properly seeking discovery before any such agency or court.

In the event the violating Party has not remedied the infraction at the end of the cure period, the non-violating Party may serve written notice upon the violating Party of termination and seek legal remedies for breach of contract as allowed hereunder. If the breach identified in the notice cannot be completely cured within the specified time period, no default shall occur if the Party receiving the notice begins curative action within the specified time period and thereafter proceeds with reasonable diligence and in good faith to cure the breach as soon as practicable.

Customer shall notify Dominion in writing of such non-appropriation at the earliest possible date which, in any event, shall be prior to Dominion performing services during any fiscal year for which an appropriation has not been made. In the event Customer notifies Dominion that sufficient funds have not been appropriated, or if in fact sufficient funds have not been appropriated, to compensate Dominion in accordance with this Agreement, Customer may suspend Dominion's performance and terminate the Dominion license under this Agreement. Suspension of performance or termination of all Dominion licenses by Dominion in accordance with this section 15.2 shall not constitute a breach of this Agreement by Dominion.

**16. Legality and Severability.** This Agreement and the Parties' actions under this Agreement shall comply with all applicable federal, state and local laws, ordinances, rules, regulations, court orders, and applicable governmental agency orders. If any term or provision of this Agreement is held to be illegal or unenforceable, the remainder of this Agreement shall not be affected thereby and each term or provision of this Agreement shall be valid and enforceable to the fullest extent permitted by law. The Parties agree that any court reviewing this Agreement shall reform any illegal or unenforceable provision to carry out the express intent of the parties as set forth herein to the fullest extent permitted by law.

**19. Waiver.** Any failure of a Party to assert any right under this Agreement shall not constitute a waiver or a termination of that right or any provisions of this Agreement.

**20. Independent Contractor.** Dominion and its agents and employees are independent contractors performing professional services for the Customer and are not employees of the Customer. Dominion and its agents and employees shall not accrue leave, retirement, insurance, bonding, use of Customer vehicles, or any other benefits afforded to employees of the Customer as a result of this Agreement.
