INDEPENDENT AUDITORS' REPORT

Board of Directors
Northeastern Pennsylvania Hospital and
Education Authority
Wilkes-Barre, Pennsylvania

We have audited the accompanying financial statements of the Northeastern Pennsylvania Hospital and Education Authority as of June 30, 2000, as listed in the Table of Contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1, the Authority prepares its financial statements on the cash basis, which is comprehensive basis of accounting other than generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash balances of the Authority, as of June 30, 2000, and the revenues it received and expenditures it paid for the year then ended on the basis of accounting described in Note 1.

Our audit was performed for the purpose of forming an opinion on the financial statements, taken as a whole. The accompanying additional information, as listed in the Table of Contents, is presented for purposes of additional analysis and is not a required part of the financial statements of the Northeastern Pennsylvania Hospital and Education Authority. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

NORTHEASTERN PENNSYLVANIA HOSPITAL AND EDUCATION AUTHORITY
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2000

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity:

The Governmental Accounting Standards Board (GASB), established the criteria for determining the activities, organizations and functions of government to be included in the financial statements of the reporting entity. The criteria used in determining whether such organizations should be included in the Authority's financial reporting entity are financial accountability and the nature and significance of the relationship. In determining financial accountability in a given case, the Authority reviews the applicability of the following criteria.

The Authority is financially accountable for:

1. Organizations that make up the legal Authority entity.
2. Legally separate organizations if Authority officials appoint a voting majority of the organizations' govern-bodying and the Authority is able to impose its will on the organization or there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government.
 - a. Impose its Will - If the Authority can significantly influence the programs, projects or activities of, or the level of services performed or provided by, the organization.
 - b. Financial Benefit or Burden - Exists if the Authority (1) is entitled to the organization's resources or (2) is legally obligated or has otherwise assumed the obligations to finance the deficits of, or provide support to, the organization or (3) is obligated in some manner for the debt of the organization.
3. Organizations that are fiscally dependent on the Authority. Fiscal dependency is established if the organization is unable to adopt its budget, levy taxes or set rates or charges, or issue bonded debt without approval by the Authority.

The Authority has determined that it has no potential component unit which would be evaluated.

B. Basis of Presentation:

The financial statements of Northeastern Pennsylvania Hospital Authority are presented in conformity with the industry audit guide, Audits of State and Local Government Units, issued by the American Institute of Certified Public Accountants.

NORTHEASTERN PENNSYLVANIA HOSPITAL AND EDUCATION AUTHORITY
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2000

C. Future Lease and Loans Receivable:

The Authority accounts for the long-term lease and loans with Wyoming Valley Health Care, Luzerne County Community College, Hospital Central Services Capital Asset Financing Program, Taylor Long-Term Care Center, Wyoming Seminary, Kings College and Wilkes University under the financing method. Accordingly, at the completion of construction, future rentals and loans receivable will represent the present value of the aggregate rentals and loans receivable over the term of the leases and loans.

D. Fund Accounting:

The accounts of the Authority are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent. Account groups are used to establish accounting control and accountability for the Authority's general long-term obligations.

There is one major fund type and one account group presented in this report. A brief description of each is presented below:

Governmental Fund Types:

Capital Project Fund:

Used to account for financial resource, such as bond issues, related to construction and improvements. The fund balance in the Capital Project Fund is designated for construction and improvements.

Debt Service Fund:

Used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related cost. The fund balance in the Debt Service Fund is reserved for the retirement of debt principal and interest.

Account Groups:

Long-Term Debt Account Group:

Used to record the outstanding principal balances of revenue bonds.

E. Investments:

Investments consist of U.S. Treasury Notes, which are stated at cost, which approximates fair value.

NORTHEASTERN PENNSYLVANIA HOSPITAL AND EDUCATION AUTHORITY
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2000

- F. Amounts to be Provided for Retirement of Long-Term Obligations:
The balance in this account represents the amount to be provided from revenues to retire long-term obligations.
- G. Debt Service Fund:
Debt service payments are shown as expenditures when payment is made. The fund balance in the debt service fund is reserved for the retirement of debt principal and interest.
- H. Total Columns on Combined Statements:
The total columns on the combined statements are captioned "memorandum only" to indicate that they are only to facilitate financial analysis. Interfund eliminations have not been made in the aggregation of the data; and it is, therefore, not comparable to a consolidation.
- I. Measurement Focus / Basis of Accounting:
The governmental funds of the Authority are accounted for on a "spending" measurement focus. Accordingly, only current assets and current liabilities are included on the governmental fund statement of assets, liabilities and fund balances and the fund balances reflect spendable or appropriate resources. The operating statement for the governmental funds reflect increases and decreases in the spendable resources through revenues and expenditures.

The account group is not a fund. It is designed to measure only the financial position of the account and does not provide results of operations.

Basis of Accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. The Authority maintains its records and prepares its financial statements on the cash basis. This method differs from generally accepted accounting principles in that certain revenue and related assets are recognized when received rather than when earned and certain expenses are recognized when paid rather than when an obligation is incurred. Interest on long-term debt is expensed when paid.

2. NATURE OF OPERATION AND ORGANIZATION

The Authority was incorporated on March 5, 1974, under the provisions of the Pennsylvania Municipal Authorities Act of 1945, as amended, pursuant to a resolution passed by the Commissioners of the Board of County Commissioners of the County of Luzerne, Pennsylvania. The Authority is administered by a five-member Board of Directors.

The statutes do not prescribe regulations related to demand deposits; however, they do allow the pooling of governmental funds for investment purposes.

8. PENDING PRONOUNCEMENTS

Governmental Accounting Standards Board (GASB) Statement No. 34 *Basic Financial Statements - Management's Discussion and Analysis - for State and Local Governments* was issued in June 1999. The Statement establishes accounting and financial reporting standards for general purpose external financial reporting by state and local governments as well as specific standards for the basic financial statements, management's discussion and analysis (MD&A), and certain required supplementary information (RSI) other than MD&A.

The requirements of this Statement are effective in three phases based on total revenues in the first fiscal year ending after June 15, 1999. Earlier application is encouraged. Based on the current year revenue level, it is anticipated that the Authority would be required to implement the Statement for the fiscal year ended June 30, 2003.

The most significant changes involve presenting the Authority's financial statements on the full accrual basis of accounting, presenting government-wide financial statements, recording depreciation expense for all assets owned by the Authority, and presenting a Management Discussion and Analysis section.
