PUBLIC COMMENT:

Tom Dombrowski

Thank you. I live in a Home Rule Community, Kingston Township that runs a 5 member Home Rule Commission, all unpaid, and a Township Manager. I don't know if everyone realizes, but you are sitting in a Home Rule Community right now run by a Mayor and a Council. Does everyone know that? The Commission wants a Home Rule set up a particular way and I think it would be fine. I would ask that everyone look into it and see if it would be better than the Commissioner form of government. I want to make mention of this because it is important to the county. Since 2003, I've been in agreement with the Commissioners' who said we need a new Personnel Policy. It's been 7 years and we still don't have it. The new Director's first priority was to put a new Personnel Policy together. It was listed as one of his first responsibilities in the newspaper. And he didn't know that it was his priority. I asked him and unfortunately he said, "He wasn't told". Well, he knows now. It is one of the poorest policies that I have ever seen in my career as a Consultant and Engineer in private industry for over 54 years. I want to point out when criminals are still being paid and there are at least 6 of them being paid...and people who serve for six to 20 years are being discharged for political reasons, it is not right! A new Personnel Policy with guidelines to correct that will do the job. If someone is charged, get them out of the Courthouse immediately. So it's wrong to do that--but a new Personnel Policy will correct those things. Six months ago I stood up and said, "Stop the Stealing!!!" Now since then, we have had 6 to 8 more people who have gone to jail or are now charged and 6 are continued to be paid. In 2003, I volunteered to go ahead and in 3 weeks, I can do and make this county proud of its personnel policy. Not to have the worse one around...

Commissioner Petrilla

Anything else, Mr. Dombrowski

Tom Dombrowski

In 2003 when Skrepenak and Vonderheid hired that first lady, I gave her a \$50.00 book on how to put together a Personnel Policy and she went and got fired anyway. And since then, we've had 2 more HR people and have not had the Personnel Policy redone. Do I have a commitment from any of you that this will be done? I will volunteer...

Thomas Concert

We have a serious situation with Luzerne County Children and Youth. I have been in constant communication with your office and also Commissioner Urban and Petrilla. I brought all these facts up to the Solicitors Office. Everyone knows about the wrong doings in that Agency. There is no doubt that wrong doing was going on. I brought it to your attention. What about this article right here? More families have been damaged because of what has gone on. You should be facing perjury charges---I sat behind you Commissioners at...

Commissioner Petrilla

You are coming very close to crossing the line...

Thomas Concert

And you two kept saying that no one brought it to your attention...

Commissioner Petrilla

You are talking about juvenile problems...

Thomas Concert

No, you are talking about juvenile problems. When the questions were directed to you about Luzerne County Children and Youth...Transcripts do not lie. Now I am going to ask you when the law suits came out...(unintelligible) OK...now that you have a Federal Lawsuit filled against your Agency, what do you plan to do for the damage done to the families and the children? Commissioners, you have a lot of people who want to know.

Commissioner Petrilla

There is a legal process in place for people who feel they have been violated.

Thomas Concert

Unintelligible...

Commissioner Petrilla

Mr. Concert what else do you have to say?

Thomas Concert

What else do I have to say? (Screaming and unintelligible)

Commissioner Petrilla

Mr. Concert, I am not going through this with you again today. If you have other issues to bring before the Board, fine, otherwise, I ask you to take your seat.

Thomas Concert

What about this law suit?

Commissioner Petrilla

I will not talk about a lawsuit.

Commissioner Urban

Mr. Concert...

Thomas Concert

Screaming something at Commissioner Urban...

Commissioner Petrilla (banging on gavel)

Mr. Concert, I am going to have to ask the Sheriffs Office...

Thomas Concert

Shame on you Mr. Urban...

Commissioner Urban

Mr. Concert, how old are your children?

Thomas Concert

How many years have I been coming to you Mr. Urban? You will answer for it in a US Court.

Commissioner Petrilla

Hitting the gavel---Mr. Concert, I am going to call for the Sheriff...

Concert taken out.....

Commissioner Urban

I want to go on record by saying that Mr. Concert came to me on a number of occasions and I sat down with him many times including once for over 5 hours. I provided that information to Mr. DeVizia and people in Children & Youth to look at it. Mr. Concert if you want to go over the details.....

Walter Griffith

I would like to take the opportunity to speak about the MOU (Memorandum of understanding) and my concerns as Controller of this County the accountability of the Sheriffs to use a personal vehicle allowance. In January I issued a statement to the Commissioners regarding the ability of the Deputy Sheriffs to collect \$15 for a civil process on the basis that we pay the Deputy Sheriffs to do. The \$15 is not a warranted expense. So I will go on record that the MOU (memorandum of understanding) that I see before me is also a violation and non accountable plan for the Controller to make payment for these expenses. I don't believe Personal Vehicle Allowances---there is nothing in the county code to allow for them---it will allow for mileage, but not for personal vehicle allowance and I also don't find how that personal vehicle allowance can be regulated to make sure that people are using their personal vehicles for county time or personal time when they are out. There are some serious issues with the union contract. It states that if they get called out at any time, they get overtime. There is nothing in the MOU ... simply two lines which state proof of registration and proof of insurance. No where does it state how much insurance they are to carry and if in fact they are in an accident how much liability the county would be responsible for...

Commissioner Petrilla

Walter, the agreement is much longer than the motion and the agreement that will be signed, should the Commissioners approve it, would include a lot of the things that you

are talking about. The motion is simply to enter into the agreement which is fixed with signatures covers those issues.

Walter Griffith

OK, but there is nothing in the agreement that talks about overtime if they are called out. Also, if they are called out when they are on the clock...their hours are 8 to 5 and if they are called out, do they get the minimum of 3 hours overtime or in light of all these things, there are a lot of issues that keep this county ripe for liability. There are issues that I am concerned about as Controller and the Commissioners should be concerned, too. I have contacted 8 Deputy Sheriffs in the state and all 8 of them do not use it. I spoke with PCED and the Sheriffs Association. No one does it because of the high liability issues. If you are driving your private car and you are in street clothes, there are liability issues. In Bradford County, 2 Sheriffs got shot and killed serving a civil process. It is a very serious business for Sheriffs Deputies. I would urge the Commissioners to vote no this motion and if they continue to proceed, I will have to take other measures to protect the taxpayers of this county.

Vito De Luca

First of all, this practice that has been in place for a number of years and for a number of Sheriff's Administrations. The way that we approached that from the Administration side was that this was something that the Sheriff's office had come to us several months ago. They indicated that they wanted this MOU (Memorandum of Understanding) so they could have it as part of the bargaining Agreement. I advised them that I would like the Sheriffs Office to sit down with the Union and to come up with a plan for how the language would be and we would review the language after they came through with some sort of agreement. Andy Check and I reviewed what was submitted and then contracted the insurance agency to make sure there were no liability issues and I believe that there may be a misunderstanding or misinformation provided by the insurance agency. So I contacted them again today. Joe Joyce of Joyce Insurance Agency indicates, "Please be advised that the prior recommendation to Luzerne County was not recommending AGAINST this course of action. It was merely to advise Luzerne County to the best practices in order to protect the county from excessive and fraudulent claims. In reality, just about every action we take dealing with unique situations, we contact our Insurance Carriers and look for their advice all the time as how to best protect the county from excessive and fraudulent liability. In reality, in this case, no matter how it is done, these individuals are driving personal cars on county time or county cars on county time and the county would be sued. This is merely a way to limit the mileage reimbursement that we would ultimately have to give to these guys who make multiple trips to the same address. It is also an incentive for that Deputy Sheriff to serve those papers on the first try, if possible. I have had conversation with the Sheriff's Office Manager and also number of the Deputies who do this on a regular basis. Our job is as Administration is to sit down with the Sheriff's Office and make sure the Sheriff has the discretion whether to use or not use this practice and also to make sure the county is protected in the best possible way. I believe in this case that Andy and I have come up with language that does that and addresses Walter's concerns about over-time pay and call out pay. We have called the Sheriff's Office and agreed that this service would be done during the typical work day---a 40 hour week. This would not result in overtime pay and the sheriff's office does have a log book to determine the whereabouts of the Deputy Sheriffs as they serve the process and make sure there is no issue. The Sheriff is an elected position and he is held accountable by the taxpayers of the county and however we hold them responsible as Administration and how they stay on budget.

Walter Griffith

The concern I have is if it is financially responsible...

Commissioner Petrilla

Excuse me Walter...we are not going to debate...

Walter Griffith

I am not debating...it is my turn to speak and I want the taxpayers to know what is fiscally responsible for them...I'm not going to debate and the taxpayers have to know that they are going to have to pay \$15.00 for something they already get paid for...

Ed Gustitus

I'm going to speak about if you are responsible to handle all the financial responsibility ...after all the financial irresponsibility... after looking at what I have seen over the past several years.

Commissioner Petrilla

I take strong umbrage to that...

Mr. Gustitus

What???

Commissioner Petrilla

You made the accusation ...I take strong umbrage to what you say...Most of the Administrative Staff around here have Bachelors and Masters in their respective fields.

Mr. Gustitus

I also have several degrees...

Commissioner Petrilla

What else do you have, Mr. Gustitus?

Mr. Gustitus

I have several newspaper clippings here---the South Main Street Project---KOZ Opportunity Zone; no property taxes or state, local taxes for 10 years and you were in with the Chamber of Commerce and you and they are always together on a number of things. You forgave them \$1 Million on the Sterling and now you want to do something on the Irem Temple on Franklin Street. These projects should have been saved years ago. The Courthouse needs \$4Million to beautify the outside and you haven't done anything inside and now you want to do the outside. The Courthouse is a beautiful place and you haven't done anything---the plaster is falling and you let it deteriorate. These are examples and Bonanza Brozena and the River Common...He placed the levee fee and now next year we are going to raise it again. This is a game that Bonanza plays and he thinks he is going to get away with it. I don't think so....(unintelligible). The FBI is investigating---they have rules, policies, and procedures. What do you have here? Not much. All this stuff gets to be such a joke. These things have existed so very long...where has everybody been? You are wasting taxpayer money. It's his money and not your money. You don't manufacture anything...you don't sell anything but yourselves.

Commissioner Petrilla

We ask everyone to keep their comments to 5 minutes....

Mr. Gustitus

Recently in the paper, Urban, stated that the county government we have now is better than Home Rule. They will do a better job and Home rule will be in because the people are fed up. If you don't see the writing on the wall, then you better open your eyes...

Commissioner Petrilla

Thank you, Mr. Gustitus.

MOTION

Memorandum of Understanding/Luzerne County & AFSCME, AFL-CIO, District Council 87

Request a Motion of the Luzerne County Board of Commissioners to approve a Memorandum of Understanding between the Luzerne County Commissioners and AFSCME, AFL-CIO, District Council 87. The purpose of this memorandum is to provide an alternative method of reimbursement of travel expenses called “Personal Vehicle Allowance” when Deputy Sheriffs are requested to use personal vehicles when serving required legal documents associated with “Civil/Real Estate Process”. The policy will be retroactive to January 1, 2010 with retroactive payments to Deputy Sheriffs who are owed “personal vehicle allowance” reimbursements. Subject to the Solicitor’s approval.

Commissioner Urban

I have a question for the Sheriff. What are you doing with the twenty vehicles you currently have?

Sheriff Gilligan

From what I understand, right now the newest vehicle we have is a 2006. Most of the vehicles we have have 150,000 to 200,000 miles on them. About six of the vehicles we have do not run at all. The others are used for transport.

Commissioner Urban

Joe are you aware of any vehicles not running?

Joe Gibbons

I’m not familiar with the day to day status of each vehicle.

Commissioner Urban

But you have two certified mechanics at the garage that have the ability to inspect vehicles and sign off on them.

Joe Gibbons

The vehicles that are in the county fleet are inspected by our mechanics who are licensed by the state to provide an inspection. We do not have the certification or equipment for the emissions testing.

Commissioner Urban

You are not aware of any unsafe vehicles being put on the road.

Joe Gibbons

I would never push our employees to pass a vehicle.

Commissioner Urban

The fact that some vehicles have high miles does not mean anything. I drive around in a car with 137,000 miles and it runs very good. Vehicles are now built to last 200,000 miles and a lot of it sometimes is just the care by the operator. So to me the miles don’t mean anything. It’s whether it’s being properly maintained. I’m reluctant to do anything that is going to add extra pay to someone. I’d like to meet with you and discuss some concerns I have. I look at a department that has twenty vehicles and you are saying six of them aren’t road worthy. At this time I am not going to vote for this change. I think that money can be put to the county coffers and used to buy new vehicles without saying you are going to get rid of 6 or 7 vehicles here and not get them replaced. Instead you keep the fleet that you have and now have our people use personal vehicles and keep the 200,000 plus dollars that would normally go to the general fund but let the employees take it and the county still puts out additional dollars to buy these vehicles. I don’t have the answers to these questions so I can’t support this policy.

Commissioner Cooney

Vito have you run this program past our insurance carrier?

Vito DeLuca

Yes

Commissioner Cooney

And they are comfortable with the program?

Vito DeLuca

They have covered us for years and they will continue to cover us. They have given us some guidance on how to prevent fraud and excessive claims.

Commissioner Cooney

This program is an alternative. It's offering the Sheriff an either/or situation. They can direct a county vehicle to be used or they can request that a personal vehicle be used.

Vito DeLuca

That is correct. The Sheriff has the discretion to make that decision.

Commissioner Cooney

So we have both alternatives being offered to the Sheriff's Office. The Sheriff's Office is a Row Office. Are they independent of the commissioners?

Vito DeLuca

Yes.

Commissioner Cooney

Thank you.

MOTION

County / Municipal / School Tax Bill Preparation Fees

Request a Motion to set the fee charged to municipalities for preparation of the County/Municipal Tax bills at \$.68 per bill, and the fee charged to school districts for preparation of School Tax bills at \$.22 per bill.

This fee reflects the costs incurred by the Luzerne County IT (Information Technology) Department when providing this service. For County/Municipal Tax bills the cost components include labor, software licenses, software support, printing materials and postage. The fee for providing this service to the school districts includes the same cost components except postage.

For municipalities the indicated per bill fee applies to the total number of bills generated, which equals the number of "real estate" bills plus the number of "personal" bills (formerly referred to as per capita or occupational bills)."

Commissioner Cooney

Can you clarify why we are doing this?

Andy Reilly

We are doing it because the chamber has submitted an application for EDDA funding and in order to receive that funding EDA requires they take first lien position and any other lien holders be subordinate to them. So rather than stand in the way of a potential several million dollars investment in the city we will take second lien position on the property.

Commissioner Urban

Is the chamber behind on any loans?

Andy Reilly

Commissioner Cooney

I'd like to speak on the Workforce Investment. As many of you know the Commissioners did not vote for the RFP's nor did we vote to award a contract to the new contractors. We've been told the Workforce Investment Board has complete autonomy and we as the Commissioners must rely on their judgment. While

I disagree personally with their decision, I also recognize that those decisions were made with good faith, and they believe they were made with the best interest of the programs participants. I'm most interested however in what is happening to the employees, and I would request the Workforce Investment Board provide us with a list, by next month, of the individuals and their placements and a list of those who have not yet secured positions. I would also like to know their salaries past and present.

Commissioner Urban

I'd also like to comment. We were told last year that the Workforce Investment Office could be the fiscal agent and a document was sent over appointing Lucyann Vierling as the fiscal agent. I'd like to take a formal vote on that sometime in the future to put a time limit on how long the fiscal agent is going to last. I think their needs to be controls and standards put on that office. It is my understanding that these 3 contractors that have been awarded only consume about half of the money that is available to the Workforce Investment to keep people in the community in need of jobs and training. I'd like to know where the other half goes. I don't buy the issue that we as commissioners have no control over any of this. We were told that we were responsible for the money if something happened to the money. If the law needs to be strengthened to give us more oversight than so be it. We need to talk to our legislatures to get that law strengthened. I'm not happy with the process. I'm not happy having to lay people off. Tentatively the list I looked at, people that have been offered positions almost none of them are going to be employed. Maybe not even a handful so far. The bigger question I have is what it will do to the clients being served by the people in that office. Is there going to be a continuity of service between the office and the new companies and the people receiving the services? Are they going to go out and hire new people that don't know anything about the clients that are being served? Typically I've seen in the Federal Government where one contractor lost a contract and another one picked it up, the first thing they do is try and go out hire as many people as they can because those people have the knowledge and are in the best position to provide the services and continuation of services without disruption. I don't see that at this point in time. So I think I still have a wait and see with this. With that being said, I'm going to reluctantly vote for this because we have to. We have no way to keep these people on the county payroll. I would like the county to seriously consider if positions become vacant in the county that they be given first consideration because there are a lot of good people on this list.

Commissioner Petrilla

We did review the list that was provided to us from the agencies. The employees were given the first opportunity to apply for the jobs. From what I saw in the excel spreadsheet that was given to me yesterday, more than half of the people have been offered or accepted positions, however a lot of people didn't even bother to apply. I was happy with the fact that they were given first preference for the jobs before they went out and advertised for those jobs externally.

Commissioner Urban

Madam Chair I would like to make a few comments. Joe, Mr. Concert who came here today, is his children in the system?

Joe DeVizia

No

Commissioner Urban

I want the public to know that his children are not in the system. I believe they are in their 20's at this point in time. (Inaudible) No. I'm tired of being attacked over this issue. I'm not going to say anything on the status of his children. His children are not in the system. He has come to me in the past and asked for help and I referred him over to Children & Youth and he continues to come and badger. He can do that all he wants but I'm not going to sit here and be a punching bag because he sees something in the paper and it sets him off. If he wants to file a lawsuit against me and the county let him do it. I'll be glad to discuss the issues in court. The children were put into the system long before I became a commissioner and they are not in the system anymore. That's all I have to say and I would like that on the record.

The second issue is home rule. Two of the commissioners sitting here tonight voted for the home rule study commission to look at adopting home rule and making changes to county government. There is a perception in this county that all the corruption is the cause of the commissioners. The corruption began in the courts with two judges closing a juvenile detention center and what we could see taking \$2.8 million in bribes, and putting kids in detention by court orders, which we have no control over. That's where the corruption began. Also the corruption in the Court Administrator's Office with \$70,000 allegedly being taken by the Court

Administrator. A branch of government that is separate and distinct from the commissioners, but again we become the punching bags. The people take it out on us. There is nothing in the home rule charter that changes anything in the courts, the cause of the corruption in this county. Nothing! So when people tell you this is going to change the way government works in Luzerne County, it is not. We voted for them to look at it. The form of government I see being established now is one branch of government. I was under the impression they would come up with an elected manager or elected mayor, which we have in other parts of the country. And also an elected council where there would be checks and balances on each branch of government. I do not see that in this form of government. I see a part time council which I refer to as a school board. Where they meet once or twice a month and that is it. They put the power of running the county into the hands of an unelected individual who is responsible to no one but the council people. That's the form of government I see and that's the form of government I do not approve of. The form of government in this county that taxes the people the most, that takes about two thirds of our taxes, is the school boards in the county. Something that definitely needs to be reformed not only in this county but across the state. Yet the people who are looking at home rule choose to adopt a similar form of government to a school board.

I've been a commissioner, this is my 11th year, and I serve as the Chairman to the Flood Protection Authority so you can blame me for the fee that was put in. I'm one of the four who voted for it. That fee is being used to maintain the pumps, pay for electricity, and pay for insurance. It is not being used to cut the grass. The fees are also being maintained for future repairs to the levee system. That levee system is here to protect the people of this valley. I think it worked twice during 2 previous high water events we had. It protected us, it didn't go over the hill and we went back to our homes and families. So if you want to blame someone for that, blame me. As far as the use of the levee, the levee is there for everyone to use. The people of the entire county and I want to reiterate that, the entire county, are paying for the bonds that are paying for the levee. Not just the people her in the communities that are being protected. I have to pay that fee for my home in South Wilkes Barre. I wrote a check out. Do I like it? No. Is it necessary? Yes. Does it help me lower my flood insurance? Yes. So I think its necessary and its providing a valuable service. I think they are doing a good job. It's automated, the pumps work. It's not like New Orleans where everything just fell apart. We have a system that is being maintained now. Prior to the levee system being upgraded, half of the pumps didn't work. Every pump was overhauled. Why? Because those pumps were being maintained by the individual communities. Now there is a central control for the pumps. There is one responsible agency and that is the Flood Protection Authority.

Those were the two issues I wanted to talk to you about tonight. I don't usually say anything at the end of the meeting. Sometimes people come in here and I don't want to start arguments with them. I wish they had stayed. But I think the facts have to be said. I believe I've been a straight talking individual and I'll continue to give you the straight story. Thank you for your time.

Request a motion to adjourn.

It was moved by Commissioner Cooney, seconded by Commissioner Petrilla
