Physical Plant

<p>Number of buildings:</p> <p>Auditors should count all buildings that are part of the facility, whether inmates are formally allowed to enter them or not. In situations where temporary structures have been erected (e.g., tents) the auditor should use their discretion to determine whether to include the structure in the overall count of buildings. As a general rule, if a temporary structure is regularly or routinely used to hold or house inmates, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.</p>	2
<p>Number of inmate housing units:</p> <p>Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.</p>	30

Audit Findings

Audit Narrative (including Audit Methodology)

Pre-Onsite Audit Phase

Audit Planning and Logistics:

I had the opportunity to discuss the audit process and expectations of both parties with the Previous PREA Coordinator Kristina Jordon. We coordinated the dates for the onsite audits at the facility. During these conversations we outlined an overall audit schedule and notified the facility of the estimated time of arrival onsite.

Posting Notice of the Audit:

I forwarded the audit posting to the Agency PREA Coordinator on May 20, 2020. The posting included the dates of the audit, purpose of the audit, my contact information and a statement regarding the confidentiality of any communication received. The postings were placed throughout the facility, including all housing units, visiting areas, recreational areas and all common areas. I verified the placement of the audit notices through time stamped photographs and during the facility tour, and inmate and staff interviews. I did not receive any letters from inmates, nor staff.

Review of Agency and Facility Policies, Procedures and Supporting Documentation:

The PREA Coordinator provided me a flash drive containing all Luzerne County Division of Corrections Policies and Procedures related to the Prison Rape Elimination Act, as well as documentation that all Policies and Procedures were practiced on a daily basis. They also provided me a completed PRE-Audit Questionnaire. The Policies, Procedures, and Documents reviewed during this phase of the audit are listed under Onsite Audit, with all documentation reviewed during the course of the audit.

Outreach to Community Advocacy Organizations:

I contacted the Luzerne County Victim's Resource Center who provides victim advocacy. They knew of no issues at the facility.

Onsite Audit Phase

Site Review:

The audit was conducted during the Covid 19 Pandemic. The Agency and Auditor took all necessary precautions outlined by the Luzerne County Divisions of Corrections. These precautions included temperature check prior to entering the facility, universal masking for all staff, and visitors. During the facility tour social distancing was practiced. The staff and inmate interviews were conducted with the participants seated at minimum of 6 feet apart, and both wearing masks.

The PREA Coordinator and I met on July 8, 2020 at approximately 8:00 a.m. to conduct a briefing and facility tour. We discussed the onsite portion of the audit, including facility tour, inmate and staff interview location, and document review. During the tour I had the opportunity to view all areas of the facility. I interacted with both staff and inmates, as well as observed the interaction between the staff and inmates. I was able to verify the location of cameras throughout the facility, as well as the camera monitor locations. While on the housing units I observed the related PREA information, Audit Posting, and applicable policies and procedures posted in the common areas, which are accessible to all inmates. These postings were further observed in common areas throughout the facility. While conducting the tour I reviewed log books on the housing units.

The inmate interviews began immediately following the facility tour. They were conducted in private rooms. These areas provided privacy for the interviews. The inmates were randomly selected from inmates on the housing units. During this process I interviewed inmates in the following categories:

Interview Type	Number
Random Inmate Interviews	15
Youthful Inmates	4
Inmates with a Physical Disability	2
Inmates who are Blind, Deaf, or Hard of Hearing	1
Inmates who are Limited English Proficient	1
Inmates with a Cognitive Disability	2
Inmates who Identify as Lesbian, Gay or Bisexual	3
Inmates who identify as Transgender or Intersex	0
Inmates in Segregated Housing for High Risk of Sexual Victimization	0
Inmates who Reported Sexual Abuse	0
Inmates who Reported Sexual Victimization During Risk Screening	3
Total Inmate Interviews	31

During the interview process several targeted categories of inmates were not being housed at the facility. I conducted the interviews with all inmates in the same manner, a preamble to the interview was related to the inmate explaining the purpose of the interview, and how they were selected and explaining to them that they did not have to speak with me if they choose not to. No inmates refused to speak with me. All inmates were asked questions related to the Random Inmate Interviews, and if they were in a targeted category, I asked those additional questions. During the interviews I utilized a copy of the initial PREA information received by inmates, and Screening form to visually stimulate the inmate's recollection of their initial intake process.

The staff interviews were conducted in various areas on all days of the audit. The facility was currently working three shifts, interviews were conducted on all shifts. During the process I interviewed staff in the following categories:

Interview Type	Number
Random Staff Interviews	11
Intermediate or Higher-Level Staff Conducting Unannounced Rounds and Intake Staff	3
Line Staff who Supervise Youthful Inmates	Not Applicable
Education and Program Staff who Work with Youthful Inmates	Not Applicable
Medical and Mental Health Staff	4
Administrative Staff	1
Volunteers and Contractors	2
Investigative Staff	1
Training Officer	1
Staff who Perform Screening	2
Staff who Supervise Inmates in Segregated Housing	1
Staff on the Sexual Abuse Incident Review Team	1

First Responders	2
PREA Coordinator	1
Warden	1
Total Staff Interviews	31

I conducted the interviews with all staff in the same manner, a preamble to the interview was related to the staff member explaining the purpose of the interview, and how they were selected and explaining to them that they did not have to speak with me if they choose not to. No staff refused to speak with me. All interviewed staff was asked questions related to the Random Staff Interviews, and if they were in a targeted category, they were then asked questions pertaining to that area. During the interviews I utilized a copy of the training they received and any documentation related to a specific targeted interview. These items were used to visually stimulate the staff's recollection on the daily practices at the facility.

The onsite documentation review was conducted during all days of the audit process. The onsite documentation was reviewed at the source, all files, and facility documents were retrieved by me. The following is a list of documentation reviewed during the Pre-Audit, Onsite Audit and Post Audit Phases, with the applicable standard to each.

At the conclusion of the Onsite Audit an exit conference was held with the administration. At this time, I provided an overview of the audit findings during the onsite audit portion.

During the staff interviews I found that the staff took ownership not only of the immediate areas they worked in, but the facility overall. This staff attitude helps in creating the respectful culture at the facility. This was further confirmed by the interviewed inmates who related that they are treated with respect by the staff.

Post Audit:

Upon completion of the Pre-Audit and Onsite Audit phases I conducted a systematic evidence review of all of the information obtained during the audit process. I utilized the Compliance Tool as a guide to ensure that all aspects of each standard were met. This assurance was made by a triangulation of the policies and documentation reviewed, my personal observations during the onsite audit, and through the information received during the interviews. After taking all of these factors into account I found that the facility has met all of the standards and are in compliance with the Prison Rape Elimination Act National Standards for Prisons and Jails.

Facility Characteristics

The Luzerne County Division of Corrections is located at 99 Water Street Wilkes-Barre, PA 19702. The facility is located within the City of Wilkes-Barre and is in close proximity to the Luzerne County Courthouse and other government buildings. The main Correctional Facility is located on Water Street, and the Minimal Offender building is located on Reichard Street, the buildings are located on the same property, all of this property is owned and operated by Luzerne County.

The mission statement/vision statement reads as follows:

Mission Statement:

To protect public safety, to ensure the safety of Department personnel, and to provide proper custody, control and care of all offenders under the Department's jurisdiction while assisting in their re-entry into society.

Vision Statement:

To utilize effective and innovative correctional strategies through ethical leadership at all levels, while providing cost efficient, superior correctional services that makes the Luzerne County Department of Corrections the best in Pennsylvania.

The Division accomplishes this by:

- Ensuring public safety
- Operating safe and secure facilities
- Creating opportunities for successful re-entry for offenders
- Ensuring the rights of victims
- Partnering with public, private, and faith-based organizations
- Ensuring the well-being of employees and their families
- Ensuring compliance with all local, State and Federal laws, rules and regulations
- Providing accountability, integrity, and efficiency for all agency operations.

Located on a five acre lot on Water Street, the Luzerne County Prison was completed in the summer of 1870. The buildings two wings contained 72 cells – 32 of which were double cells and could accommodate 104 prisoners.

The facility became obsolete by the 1980's. An expansion and renovation project to the original jail was completed in 1987. Cells were enlarged and a five story tower increased the number of cells to 256. Since that time, the prison became known as the Luzerne County Correctional Facility.

The Ground Floor consists of the Records Department and Booking area, where all admissions and discharges occur. The Kitchen and food supplies, the Commissary and the Laundry are also on this floor. Maintenance Office and Shop and the Mechanical Rooms are here as well.

The First Floor contains the Main Entrance, the Non-Contact Visiting Room, (3) Attorney Visiting Rooms, Main Control Center, the Library, Education Room, Treatment Offices, Drug and Alcohol Program Offices, Clergy Room and the Offices for the Captains and Deputy Warden. Additional the Restrictive Housing Unit (L2), Misconduct Unit (L1), and Maximum Security Units (M1 and M2) are on this floor along with two outside restrictive recreations areas for segregation inmates. A Kitchen Workers Housing Unit and General Workers Housing Unit exist on this floor. The only entrance to the outside yard is also on this floor.

The Second Floor consists of the Medical Department with two Infirmary cells, an Examination Room, Dental Office, and Pharmacy. Mental Health Offices, Classification, a Control Center, a six cell Mental Health housing unit, and Youthful Offender Unit are also found on this floor. Two more housing units, 2C1, and 2C2 are housing inmates under Protective Custody classification. 2D1 and 2D2 units contain low

custody inmates and inmates monitored by the Mental Health due to medication needs. Two ten-inmate housing units exist in dayroom areas for specials needs.

Third Floor holds a Control Center, four Housing Units, and two Dayroom Units containing Medium and Medium/Maximum classification inmates.

The Fourth Floor is entirely female inmates. A Control Center and three separate Housing Units 4A (General Population), 4B (Discipline/Segregation), 4C (In-House Workers and Work Release) make up this floor.

The Fifth Floor has a Control Center, Housing Unit 5A (Minimum/Medium classification), a 2- cell Restrictive Housing Unit, Video Conferencing Room, a Multipurpose Room and a Record Storage Room. The floor also has an outdoor yard used for recreating segregation inmates.

The overall cell construction limits any view of an inmate when they are changing or toileting. The showers are located outside of the housing areas, all showers have curtains that block any viewing.

The Minimal Offenders Unit was established and opened on October 18, 2005. Designed to hold up to 238 residents, the Facility consists of three (3) separate housing units. These units are constructed in the same manner, they are two floor open bay housing units. The bathrooms are located in a separate area of the units and are constructed to provide privacy while showering and performing bodily functions.

Cameras are located throughout the facility, with the main monitors in the security control. During my tour of the facility I found that information on the Prison Rape Elimination Act, and reporting avenues are located throughout the facility, all of this information is also available to the inmates through the kiosk system on the housing units. .

I found that administrative staff, as well as general staff moves throughout the facility frequently, this movement of staff deters any violation of the PREA policy, and more importantly provides an overall safe environment for both inmates and staff.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The Luzerne County Division of Corrections Prison Rape Elimination Act (PREA) Policy outlines the agency's mandated zero tolerance toward all forms of sexual abuse and sexual harassment and further

outlines the agency's approach to preventing, detecting, and responding to such conduct. This policy furthermore defines all sexual abuse and sexual harassment.

I reviewed the policy in its entirety, as well as questioned staff members on its content and applicable sections to their specific duties within the facility. The staff understood the policy and its practical application to the daily operation of the facility.

The agency has designated a PREA Coordinator. During the interview he related that he has sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards. I found the Agency PREA Coordinator to be well versed in the PREA Standards, and their daily application. Interviewed staff stated that the PREA Coordinator is always available to answer questions and provide advice on the implementation of the PREA policies. During the onsite portion of the audit I found the PREA Coordinator as well as all other staff dedicated to the prevention of sexual abuse and sexual harassment in the facility. The prevention of incidents of this nature is evident by the minimal amount of PREA allegations at the facility.

Prior to the onsite audit all documentation was reviewed, during the onsite portion I observed the policies in daily practice, and this was further confirmed during my interviews with both staff and inmates.

It should be noted that the PREA Coordinator has recently changed. The previous PREA Coordinator was present during the audit of the facility. The current acting PREA Coordinator, had previously filled the position.

After a careful review of all documentation, and the information received during interviews, I found that the agency has substantially exceeded the requirements of this standard, and all provisions. This decision was based on the agency's overall commitment to sexual safety in their facility.

Standard 115.12: Contracting with other entities for the confinement of inmates

(N/A if the agency does not contract with private agencies or other entities for the confinement of inmates.) Yes No NA

115.12 (b)

- Does any new contract or contract renewal signed on or after August 20, 2012 provide for agency contract monitoring to ensure that the contractor is complying with the PREA standards? (N/A if the agency does not contract with private agencies or other entities for the confinement of inmates.) Yes No NA

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency does not contract with any other facility for housing of inmates. They do have agreements with other county facilities to house inmates under special circumstances. All of the counties they utilize under this agreement are compliant with the PREA standards and have been audited.

After a careful review of all documentation, and the information received during interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency has developed a facility staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect inmates against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, facilities have taken into consideration all areas enumerated under this standard. Compliance was determined by reviewing the aforementioned policies. I further questioned staff on the policies and the ability to fully staff the facility at all times. I was informed that the facility will fill posts with overtime if needed to be at full compliment. The facility also has the ability to collapse posts and limit inmate activity and movement when needed.

The staffing at the facility is reviewed yearly by the administration. This was confirmed through interviews and reviewing the staffing analysis for 2019. I also reviewed documentation of staffing analysis from previous years to ensure the yearly review is consistent.

During the interviews with the administration at the facility I confirmed a daily review of the staffing at the facility. The administration meets on a regular basis. During this meeting the overall facility operations are discussed to include staffing.

The staffing plan has not been deviated from within the last 12 months. I confirmed during staff interviews that any posts would be filled with overtime if needed, and they have the ability to collapse other posts if need be.

The administration meets on a regular basis to review incidents that have occurred at the facility, as well as discussing normal facility operation. During these meetings, they discuss any adjustments that may need to be made to the staffing plan, deployment of video monitoring and other technologies, and any resources available. This was confirmed during the staff interviews.

The agency has implemented a policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. These unannounced rounds take place during all shifts at the facility. The agency has a policy prohibiting staff from alerting other staff members that these supervisory rounds are occurring. I further confirmed the rounds are occurring during the staff and inmate interviews as well as reviewing the logs generated by the housing unit officers.

During the onsite audit I reviewed the officer keeper reports as well as the PREA Supervisor Rounds Log Book confirming the documentation of the unannounced rounds.

After a careful review of all documentation, and the information received during interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Standard 115.14: Youthful inmates

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.14 (a)

- Does the facility place all youthful inmates in housing units that separate them from sight, sound, and physical contact with any adult inmates through use of a shared dayroom or other common space, shower area, or sleeping quarters? (N/A if facility does not have youthful inmates [inmates <18 years old].) Yes No NA

115.14 (b)

- Do youthful inmates have access to other programs and work opportunities to the extent possible? (N/A if facility does not have youthful inmates [inmates <18 years old].) Yes No NA

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The facility has a separate housing unit for both male and female youthful inmates. The housing units are multiple occupancy. These housing units provided sight and sound separation from adult inmates. At the time of the audit four juveniles were being housed two males and two females.

The youthful inmates have access to all educational, recreational, and all other services offered to adult offenders, and are provided recreation on a daily basis.

During the interviews with the staff I confirmed that the juvenile inmates are being offered all of the services.

I further confirmed this during the interview with interviews with all four youthful inmates.

After a careful review of all documentation, and the information received during interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Standard 115.15: Limits to cross-gender viewing and searches

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

 Yes No

115.15 (b)

115.15 (c)

- Does the facility document all cross-gender strip searches and cross-gender visual body cavity searches? Yes No
- Does the facility document all cross-gender pat-down searches of female inmates? (N/A if the facility does not have female inmates.) Yes No NA

115.15 (d)

- Does the facility have policies that enables inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks? Yes No
- Does the facility have procedures that enables inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks? Yes No
- Does the facility require staff of the opposite gender to announce their presence when entering an inmate housing unit? Yes No

115.15 (e)

- Does the facility always refrain from searching or physically examining transgender or intersex inmates for the sole purpose of determining the inmate's genital status? Yes No
- If an inmate's genital status is unknown, does the facility determine genital status during conversations with the inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner? Yes No

115.15 (f)

- Does the facility/agency train security staff in how to conduct cross-gender pat down searches in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs? Yes No
- Does the facility/agency train security staff in how to conduct searches of transgender and intersex inmates in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs? Yes No

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The facility does not conduct cross-gender strip searches or cross-gender visual body cavity searches unless in exigent circumstances or when performed by a medical practitioner. I confirmed this procedure during staff and inmate interviews, as well as review of policy. I also confirmed that the facility has not conducted a search under these circumstances.

The facility does not limit female movement if female staff is unavailable to search them. During staff interviews I confirmed that female staff are always present, this is part of the staffing requirements.

The above policies outline procedures and practices that enable inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. The policies further dictate that staff of the opposite gender announces their presence when entering an inmate housing unit. These practices were confirmed during the staff and inmate interviews as well as during the facility tour when I observed the announcements taking place. The bathrooms in the housing units are constructed to provide privacy while performing bodily functions and showering. They have either curtains or doors to provide this privacy.

The facility does not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. If the inmate's genital status is unknown, it is determined during conversations with the inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. I further confirmed the practices during the staff and medical interviews.

The agency has trained security staff in how to conduct cross-gender pat-down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. This was confirmed during staff interviews and reviewing the provided training materials.

After a careful review of all documentation, and the information received during interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Yes No

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency has taken appropriate steps to ensure that inmates with disabilities (including, for example, inmates who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. These steps include, when necessary to ensure effective communication with inmates who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, the agency shall ensure that written materials are provided in formats or through methods that ensure effective communication with inmates with disabilities, including inmates who have intellectual disabilities, limited reading skills, or who are blind or have low vision. The facility outlines the response to inmates in these categories in the above listed policies. The policies outline procedures for inmates who are not only non-English speaking, but all who are enumerated in this standard. I confirmed the use of during the staff and inmate interviews.

The agency has taken steps to ensure meaningful access to all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to inmates who are limited English proficient. The agency would utilize a language line for interpretation purposes.

The treatment staff further confirmed that they meet with the inmates within 14 days and would further provide education.

The agency does not rely on inmate interpreters, inmate readers, or other types of inmate assistants. The interviewed agency investigator is aware of the approved interpreters and confirmed during their interview that they would utilize the services available through the Luzerne County District Attorney's Office for interpretation.

During the inmate interviews I interviewed inmates with Cognitive Disabilities, on Limited English Proficient, and one inmate hard of hearing. All of these inmates related that the staff further explained the sexual abuse and sexual harassment policies, and ensured that the inmates understood the reporting avenues.

After a careful review of all documentation, and the information received during interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency has policies and procedures in place that identify anyone who had been convicted of sexual abuse in a confinement setting, engaged in or attempted to engage in sexual activity in the community or has been civilly or administratively adjudicated for the same. The agency has developed an application that specifically asks the applicant about these activities. During the interviews with staff, and administration I verified that the form is being utilized, I further verified the utilization by reviewing files, I found that the questions were asked and answered in all of the reviewed files. During the staff interviews I verified they were asked these questions.

During the documentation review, and review of files I found that this process is also being utilized in the promotion system throughout the agency. This was further confirmed through staff interviews, and interviews of promoted personnel.

The agency has also implemented a background investigation process for all new employees, contractors and volunteers. The background investigations are being conducted as per agency policy. A check through the National Crime Information Center (NCIC) is part of the process. The agency is also conducting these checks on all staff, contractors, and volunteers every 5 years. This was confirmed through interviews and reviewing documentation of the NCIC checks.

After a careful review of all documentation, and the information received during interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

The agency has made no substantial expansion to this facility nor is any planned. During the interviews I confirmed that if any expansion or acquisition of facilities takes place, the overall security and safety is taken into consideration, including the sexual safety of the inmates.

The facility has added cameras in the facility. These cameras were added in areas that were considered to be blind spots, they not only provide additional sexual safety, but overall safety.

After a careful review of all documentation, and the information received during interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE:

All incidents are immediately responded to by the trained facility investigators, they are further trained in evidence identification and collection.

The agency conducts administrative investigations, all criminal investigations are conducted by the Luzerne County District Attorney's Detectives. The agency follows a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for both administrative proceedings and criminal prosecutions. The protocol is developmentally appropriate for youthful inmates. The Luzerne County DOC investigators work hand in hand with the Luzerne County Detectives during the investigations. The County Detectives have also received training in evidence identification and collection.

These protocols are outlined in the above policy, all staff interviewed understood these protocols.

The Luzerne County DOC has established a procedure with the Luzerne County Sexual Assault Response Team to have the SART respond to all allegations of sexual abuse in the facilities. The established county SART was expanded to include a specific team that responds to facility allegations.

The facility transports all victims to Wilkes-Barre General Hospital for forensic examinations, this hospital is equipped with Sexual Assault Nurse Examiners. These examinations are provided at no cost to the victim.

Staff of the Victims Resource Center is part of the SART. They will immediately respond with any activation of the team. If requested by the victim, the victim advocate, will accompany and support the victim through the forensic medical examination process and investigatory interviews, providing emotional support, crisis intervention, information, and referrals. This was verified through staff interviews and interviews with the Victims Resource Center personnel.

These above procedures were further confirmed during the interviews with the facility investigators, and during the review of the investigations, all offers of examinations and victim advocacy are documented. The aforementioned victim advocates are available to the victim during the forensic medical examination process, the investigatory interviews and they provide emotional support, crisis intervention, information, and referrals.

It should be noted that the facility has not had any incidents within the past 12 months where these services were utilized.

After a careful review of all documentation, and the information received during interviews, I found that the agency has substantially exceeded the requirements of this standard, and all provisions. This decision was based on the agency's overall commitment to sexual safety in the facility.

EVIDENCE OF COMPLIANCE:

The agency provides yearly training to all employees on the areas enumerated in this standard. I reviewed the training curriculum and materials, I found that they address all areas. I further confirmed the training during the staff interviews and the review of training records. The employees receive the initial training and annual updates. It was confirmed during staff interviews that they also receive updates during roll calls.

All employees receive training on interacting with males, females, intersex, gay, bisexual and transgender inmates. This was confirmed during review of training materials and during staff interviews.

The employees are verifying the receipt of the training through a signature, this was verified during the review of the sample signature logs.

The training provided by the agency is created yearly by the training department. During the interviews they confirmed they are constantly updating the training to provide the most current information to the staff and constantly improving on the training materials.

The agency is providing PREA training on a yearly basis, this far exceeds the provisions of the standard.

EVIDENCE OF COMPLIANCE:

The agency has trained all volunteers and contractors who have contact with inmates on their responsibilities under the agency's sexual abuse and sexual harassment prevention, detection, and response policies and procedures. The level and type of training provided to volunteers and contractors is based on the services they provide and level of contact they have with inmates. At a minimum they are notified of the agency's zero-tolerance policy regarding sexual abuse and sexual harassment and informed how to report such incidents. No volunteers were available during the audit due to the facility lockdown resulting from the Covid 19 pandemic. I interviewed contracted medical and mental health staff. They confirmed they are receiving yearly training on PREA.

The agency maintains all documentation confirming that volunteers and contractors understand the training they have received. This documentation is maintained at the facility, this was confirmed during review of the volunteer and contractor acknowledgment forms.

The agency is far exceeding the expectations of the standard. They are providing yearly training and updates to volunteers and contractors to ensure they are aware of the zero-tolerance policy and PREA.

EVIDENCE OF COMPLIANCE:

During the intake process inmates receive information explaining the agency's zero tolerance policy regarding sexual abuse and sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment, this information is located in the inmate handbook and in a pamphlet form. This was confirmed during the inmate and staff interviews, I further confirmed this by reviewing inmate electronic files and ensuring that the acknowledgment forms were in the files and signed by the inmates. The signatures are captured electronically. During the intake process the inmates will view a video on the Prison Rape Elimination Act and utilize the electronic signature described above to acknowledge viewing the video.

The inmates also receive an in-depth orientation during classification where a second screening takes place. At this time the inmates receive additional information on the agency's zero tolerance policy regarding sexual abuse and sexual harassment. This was confirmed during the staff interviews and the inmate interviews. This orientation takes place within seven to fourteen days of arriving at the facility.

The facility provides inmate education in formats accessible to all inmates, this includes inmates who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to inmates who have limited reading skills. The facility provides materials to inmates in Spanish, they also have designated staff who can provide interpretation of other languages. The Case Managers confirmed they would provide education to other individuals if needed.

The facility has all key information on the zero-tolerance policy and reporting avenues provided through signage placed throughout the facility. I viewed this signage during the facility tour. I further confirmed that the signage has been in place during the inmate and staff interviews.

After a careful review of all documentation, and the information received during interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

All inmates are assessed during the intake process, which is completed upon arrival at the facility. This screening is conducted utilizing the screening form in the X Jail system. This instrument identifies all areas of victimization and abusiveness enumerated in this standard. This was verified through interviews with staff and inmates, as well as review of the completed instruments. The screening is being conducted by trained staff.

The inmates are also screened during the medical intake which takes place upon arrival at the facility. During the medical intake they ask about prior victimization, they have the ability to task a mental health follow up for the inmate. This was confirmed through interviews with inmates who had reported prior victimization.

The initial screening for risk of being sexually abusive considers any known prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse. This was confirmed during review of the screening tool and interviews with both staff and inmates.

The facility is reassessing all inmates within 30 days of arrival, this reassessment is being conducted by the treatment staff, and they are taking into considerations all information available to them at the time of reassessment. This was confirmed by reviewing the reassessment documentation and staff interviews.

The facility would reassess an inmate's risk level when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that may change the inmate's risk of sexual victimization or abusiveness. This was confirmed during the staff interviews.

Inmates are informed during the screening process that they will not be disciplined for refusing to answer, or for not disclosing complete information. This was confirmed during review of the screening tools, and during the staff and inmate interviews.

The agency implements control on the dissemination of screening information at the facility level. The information from the screening tools is only available to treatment staff, medical if needed, and administration. The screening information is stored in the inmate's file.

The agency further screens all inmate through medical, where they again ask questions relative to sexual victimization, this was confirmed by reviewing the medical screening forms and interviews. The inmates are constantly being reassessed by their assigned Case Managers. The Case Managers meet with each inmate on and make case notes in the Offender Management System. This was confirmed through interviews and watching the interaction between inmates and the Case Managers.

The interviewed Case Managers stated that they meet with the new arrival inmates within 72 hours. During this meeting they review all intake documentation with the inmates. They all related that they feel the inmates may be more comfortable offering sensitive information to them since they are not in uniform. This practice shows the commitment of the Case Managers to the overall safety at the facility.

After a careful review of all documentation, and the information received during interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency utilizes the information from the screening and reassessment to inform housing, bed, work, education, and program assignments with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive. This was confirmed during review of the policy and I confirmed these procedures during staff and inmate interviews.

The agency makes all of these determinations on an individualized basis, this ensures the safety of each inmate. This was confirmed during policy review, and staff and inmate interviews.

I confirmed during policy review and interviews that when deciding whether to assign a transgender or intersex inmate to a facility for male or female inmates, and in making other housing and programming assignments, the agency considers on a case-by-case basis whether a placement would ensure the inmate's health and safety, and whether the placement would present management or security problems. I also confirmed that the inmates own views would be taken into consideration during these decisions. Through policy and interviews I confirmed that a transgender inmate would be given the opportunity to shower separately from other inmates.

I confirmed during interviews with the Case Managers that placement and programming assignments for each transgender or intersex inmate would be reassessed at least twice each year. This is also addressed in policy.

Neither the agency nor facility place lesbian, gay, bisexual, transgender, or intersex inmates in dedicated facilities, units, or wings solely on the basis of such identification or status. This was confirmed during interviews, as well as inmate interviews, several inmates interviewed at the facility identified as gay, and bisexual.

After a careful review of all documentation, and the information received during interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE:

The facility provides the inmates the information on reporting in the inmate handbook and pamphlet provided at intake and through signage throughout the facility. The inmates can report directly to any staff, through medical, or through the PREA reporting hotline. Access to outside confidential support services is outlined in the agencies policies and procedures. The inmate would have the ability to utilize the services provided through Luzerne County Victims Resource Center. These services are outlined in the inmate handbook, and would be provided to inmates involved in an incident. The services that the inmates would receive are the same as the level received in the community, this was confirmed with the supervisor at the Luzerne County Victims Resource Center.

Through interviews I further established that follow up mental health care would be provided by the facility for any inmate victim or abuser who was involved in an incident.

The PREA Coordinator would inform inmates, prior to giving them access, of the extent to which such communications will be monitored and the extent to which reports of abuse will be forwarded to authorities in accordance with mandatory reporting laws. This was confirmed during interviews.
