Subject: Requests for information unanswered

Mr. McGinley,

Via email, in the past 2 weeks, I have requested clarification of 2 issues but have not yet received a response to either.

Please advise as to the status of my information requests. For your reference, the items are:

- clarification from management for the 2018 budget transfer in HR, moving \$100 into a line item (100.30.4113.550.15 - Other Contractual Services) that already has \$14,000. The line item council review process and passage of the 2018 budget was intended to ensure that each department had planned adequately for 2018. Considering that only 31 days of 2018 had passed when this transfer was submitted, I would like to know why it was necessary.
- an explanation from management regarding the Public Defender position change. During budget work sessions, the PD expressed the need for more staff; I would like to know how the elimination of a .5 FTE position is a positive change in this office.

Thank you.

Linda Houck
