

Luzerne County EMA Training and Exercise Plan 2020

Note: This is the public version of our TEP. Some classes and exercises are confidential in nature and are ONLY offered to local and county EMA staff, volunteers, and response partner organizations for security purposes. For more information regarding these classes and exercises please contact your local municipal Emergency Management Coordinator.

Please click on “announcements” for more information.

Please note that this plan is subject to change due to LCEMA emergent activities, the approval of PEMA for all G-Series courses, the availability of instructors and resources, participant registration, and any other situation that may cause LCEMA to postpone or cancel a scheduled event as necessary. Every class listed is either sponsored by, or in cooperation with, LCEMA and is held at LCEMA unless otherwise specified.

As of January 6th, 2020
