The Luzerne County Public Defender’s Office announces that until further notice, all applications for PD representation will be taken by appointment only. We are trying to minimize the contact and maximize the distance between persons coming into the office for our services. Please call (570)-825-1754 to make your appointment. It is doubtful, at least at this point, that your appointment will include face to face meeting with an investigator, rather, we will try accomplishing this initial meeting by phone.

In addition, applications can still be made online at the County website, under “Departments” than “Public Defender”, drop down to the link to Public Defender Application.
