Hi,

We are conducting research on solar activity in the U.S. and would like access to the following data:

- Note that we do not need the original records nor need scanned copies – just the data that can be produced in excel or CSV format by the software used by your department to track permits and an email receipt is preferred
- Issued Residential and Commercial solar (photovoltaic – PV) permits from 01/012016 to 03/31/2022
- The following data points: permit number, permit status, permit address, contractor, issue date, final date, permit type, sub-type, valuation (if available), work description, final / completion date
- If possible, please provide the reports in CSV or excel format.

Regards, and stay safe
