Dear Administrator,

Members of the Professional Recyclers of Pennsylvania (PROP) are collaborating with the Pennsylvania Department of Environmental Protection (DEP) to help school leaders manage recycling programs in both fiscally and environmentally sound ways.

Our mission is to develop and provide - at no cost to schools - best practices and recommendations for school administrators, school boards, and operations managers, on how best to manage recyclables and organics. We know that some schools already have model programs. Ultimately, we hope to learn your success stories and share them.

First, we need to obtain information regarding recycling practices currently happening in each school. We have prepared a brief questionnaire to collect data. The survey is enclosed and can be returned by mail, or you can visit [www.proprecycles.org](http://www.proprecycles.org) to access the survey online. The survey should take about 5-10 minutes to complete. Please complete **one survey for each school**.

Help us help you! Complete the survey and the school will be entered into a drawing in which we are giving away one of each of the following prizes, Technical Assistance Consultation to help improve your recycling program (\$7,500 value) or up to \$5,000 to help create a Green Space for your school. Survey's must be returned by November 30, 2022 to be entered into the drawing.

Return completed surveys to the PROP office:

**PROP**  
**Attn: Shelly Dreese**  
**908 North 2<sup>nd</sup> Street**  
**Harrisburg, PA 17102**

If you have, any questions please feel free to give me a call 717-441-6049.

Sincerely,

*Shelly Dreese*
